INSTRUCTIONS

The Instructions Numbered 1 to 24 on this Page Correspond with the Item Numbers on Page 1 of the Return

GROSS INCOME AND DEDUCTIONS

1. Gross sales.—If engaged in trading or manufacturing, enter as Item 1 on page 1 of the return, the gross sales, less goods returned and any allowances or discounts from the sale price.

Banks, insurance companies, and other corporations required to submit statements of income and expenses to any national, State, municipal, or other public officer may submit with the return a statement of income and expenses in the form furnished to such officer, in lieu of the information requested in Items 1 to 23 of the return, except that a railroad company will submit with the return a statement on Form 1090. In such cases the taxable net income will be reconciled by means of Schedule L on page 3 of the return, with the net profit shown by the income and expense statement submitted, and should be entered as Item 24 on page 1 of the return.

2. Cost of goods sold.—Enter as Item 2 the information requested on lines (a) to (e) and list in Schedule A on page 4 of the return the principal items of cost, including the amount entered on line (c), the minor items to be grouped in one amount. Enter as salaries and wages on line (c) the total compensation, during the period covered by this return, of individuals employed (exclusive of officers and firm members).

If the production, purchase, or sale of merchandise is an income-producing factor in the trade or business, inventories of merchandise on hand should be taken at the beginning and end of the taxable year, which may be valued at cost, or cost or market, whichever is lower. Enter the letters "C," or "C or M," immediately before the amount column on lines (a) and (e) under Item 2, if the inventories are valued at either cost, or cost and market, whichever is lower, and explain fully in question 8 on page 3 the method used. In case the inventories reported do not agree with the balance sheet, attach a statement explaining how difference occurred.

3. Gross profit.—Enter as Item 3 the gross profit from trading or manufacturing, which is obtained by deducting Item 2, the cost of goods sold as extended, from Item 1, the net sales.

4. Gross profit from other operations.—Enter as Item 4 the gross profit from operations other than trading or manufacturing, stating in the space provided the nature and amount of the principal items; the minor items should be grouped in one amount.

5. Interest on bank deposits, etc.—Enter as Item 5 all interest received or credited to the corporation during the taxable year on bank deposits, notes, mortgages, and corporation bonds.

6. Rents.—Enter as Item 6 the gross amount received for the rent of property. Any deductions claimed for repairs, interest, taxes, and depreciation should be included in Items 14, 15, 16, and 20, respectively.

7. Royalties.—Enter as Item 7 the gross amount received as royalties. If a deduction is claimed for depletion, it should be reported as Item 21.

8. Profit from sale of capital assets.—Enter as Item 8 the amount of gain or loss from the sale or other disposition of real estate, stocks, bonds, and capital assets.

Describe the property briefly in Schedule B, and state the actual consideration or price received, or the fair market value of the property received in exchange. Expenses connected with the sale, such as commissions paid agents, may be deducted in computing the amount received.

Enter the original cost of the property, or if it was acquired prior to March 1, 1913, the fair market value as of that date, whichever is greater. Attach statement explaining how value as of March 1, 1913, was determined. Expenses incidental to the purchase may be included in the cost if never deducted from income.

Enter as depreciation the amount of exhaustion, wear and tear, obsolescence, or depletion which has been allowable in respect of such property since date of acquisition, or since March 1, 1913, if the property was acquired before that date. In addition, if the property was acquired before March 1, 1913, and if the cost of such property is greater than its fair market value as of that date, the cost shall be reduced by the depreciation actually sustained before that date. See Articles 591 to 604 of Regulations 74.

Subsequent improvements include expenditures for additions, improvements, and repairs made to restore the property or prolong its useful life. Do not deduct ordinary repairs, interest, or taxes in computing gain or loss.

No loss shall be recognized in any sale or other disposition of shares of stock or securities where the corporation has acquired substantially identical property within 30 days before or after the date of such sale, unless the corporation is a dealer in stock or securities in the ordinary course of business.

In case the amount to be entered in Column 7 is a deductible loss, such amount should be preceded by a minus sign or written with red ink.

9. Dividends.—Enter as Item 9 the amount received as dividends (a) from a domestic corporation other than a corporation entitled to the benefits of Section 251 of the Revenue Act of 1928 and other than a corporation organized under the China Trade Act, 1922, or (b) from a foreign corporation when it is shown to the satisfaction of the Commissioner that more than 50 per cent of the gross income of such foreign corporation for the three-year period ending with the close of its taxable year preceding the declaration of such dividends (or for such part of such period as the corporation has been in existence) was derived from sources within the United States.

10. Other income.—Enter as Item 10 all other taxable income for which no place is provided on the return, together with any dividends specifically excluded from Item 9.

11. Total income.—Enter as Item 11 the net amount of Items 3 to 10, inclusive, after deducting any losses reported in Items 3, 4, and 8.

12. Compensation of officers.—Enter as Item 12 the compensation of all officers, in whatever form paid, and fill in Schedule C, giving the information requested.

13. Rent.—Enter as Item 13 rent paid for business property in which the corporation has no equity.

14. Repairs.—Enter as Item 14 the cost of incidental repairs including the labor, supplies and other items which do not add to the value or appreciably prolong the life of the property. Enter as salaries and wages the compensation, during the period covered by this return, of persons employed directly in connection with these incidental repairs, as shown in Schedule D. Expenditures for new buildings, machinery, equipment, or for permanent improvements or betterments which increase the value of the property are chargeable to capital account. Expenditures for restoring or replacing property are not deductible, as such expenditures are chargeable to capital account or to depreciation reserve, depending on how depreciation is charged on the books of the corporation.

List in Schedule D the principal items of cost, grouping the minor items in one amount.

15. Interest.—Enter as Item 15 interest paid on business indebtedness. Do not include interest on indebtedness incurred or continued to purchase or carry obligations or securities the interest upon which is wholly exempt from taxation.

16. Taxes.—Enter as Item 16 taxes paid or accrued during the taxable year. Do not include Federal income taxes, income taxes claimed as a credit in Item 32, taxes assessed against local benefits tending to increase the value of the property assessed, Federal taxes paid on bonds containing a tax-free covenant, nor taxes imposed upon sales by the manufacturer.

List in Schedule E each class of taxes deducted.

17. Losses.—Enter as Item 17 losses sustained during the year and not compensated for by insurance or otherwise. Losses of business property arising from fire, storm, shipwreck, or other casualty, or from theft, should be explained in Schedule F, giving the information requested.

18. Bad debts.—Enter as Item 18 debts, or portions thereof, arising from sales or services that have been reflected in income, which have been definitely ascertained to be worthless and have been charged off within the year, or such reasonable amount as has been added to a reserve for bad debts within the year.

If the debts are included in the deduction claimed, submit a schedule showing the amounts charged off, and state how each was determined to be worthless.

If the amount deducted is an addition to a reserve, enter in Schedule G the amount of sales charged on account, and the amount of bad debts charged off, for each of the years indicated.

A debt previously charged off as bad, if subsequently collected, must be returned as income for the year in which collected.

19. Dividends.—Enter as Item 19 the dividends described in Instruction 9 which were reported as income in Item 9.

Describe in Schedule H any dividends claimed as a deduction.

20. Depreciation.—The amount deductible on account of depreciation in Item 20 is an amount fairly measuring the portion of the investment in depreciable property by reason of exhaustion, wear and tear, or obsolescence, which is properly chargeable against the operations of the year. If the property was acquired by purchase on or after March 1, 1913, the amount of depreciation should be determined upon the basis of the original cost (not replacement cost) of the property, and the probable number of years remaining of its useful life. In case the property was purchased prior to March 1, 1913, the amount of depreciation will be determined in the same manner, except that it will be computed on its original cost, or the fair market value as of March 1, 1913, whichever is greater. If the property was acquired in any other manner than by purchase see Article 611 of Regulations 74. The capital sum to be replaced should be charged off over the useful life of the property either in equal annual installments or in accordance with any other recognized trade practice, such as an apportionment over units of production. Whatever plan or method of apportionment is adopted must be reasonable and must have due regard to operating conditions during the taxable year. The method adopted should be described in the return. Stocks, bonds, and like securities are not subject to exhaustion, wear and tear within the meaning of the law.

If a deduction is claimed on account of depreciation Schedule I shall be filled in, and the total amount claimed therein should correspond with the figures reflected in the balance sheet. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Land values must not be included in this schedule. See Articles 201 to 210 of Regulations 74.

21. Depletion.—If a deduction is claimed on account of depletion, secure from the Collector Form D (minerals), Form E (coal), Form F (miscellaneous non-metals), Form O (oil and gas), or Form T (timber), fill in and file with return. If complete valuation data have been filed with Questionnaire in previous years, then file with this return information necessary to bring your depletion schedule up to date, setting forth in full statement of all transactions bearing on deductions or additions to value of physical assets with explanation of how depletion deduction for the taxable year has been determined. See Articles 221 to 257 of Regulations 74.

22. Other deductions.—Enter any other deductions authorized by law, and file with the return a schedule showing how each deduction was computed. If a deduction is claimed on account of a net loss for prior year, see Article 652 of Regulations 74.

23. Total deductions.—Enter as Item 23 the total of Items 12 to 22, inclusive.

24. Net income.—Enter as Item 24 the net income, which is obtained by deducting Item 23 from Item 11. The net income of a corporation shall be computed upon the basis of its taxable year in accordance with the method of accounting regularly employed in keeping the books, unless such method does not clearly reflect the income.

COMPUTATION OF TAX

25. The tax is computed upon the amount of net income in excess of the credit of \$3,000 which may be claimed in Item 26 by a domestic corporation having a net income of less than \$25,360. In such case, if the first or final return of a corporation is for a period of less than twelve months, the full credit of \$3,000 is allowed. If the return is made for a fractional part of a year to effect a change in the accounting period, the tax shall be computed as provided in Instruction 46. For the credit allowed a corporation organized under the China Trade Act, 1922, see Section 261 of the Act of 1928.

CREDIT FOR TAXES

26. A foreign corporation subject to taxation and not engaged in a trade or business within the United States and not having any office or place of business therein may claim as a credit in Item 31 any income tax required to be deducted and withheld at the source.

27. If a credit is claimed by a domestic corporation in Item 32 on account of income tax paid to a foreign country or a possession of the United States, submit Form 1118 with this return, together with the receipt for each such tax payment. In case credit is sought for taxes accrued the form must have attached to it a certified copy of the return on which each such accrued tax was based, and the Commissioner may require a bond on Form 1119 for the payment of any tax found due if the tax when paid differs from the credit claimed. A foreign corporation is not entitled to claim this credit.

29. **Corporations in possessions of the United States.**—Domestic corporations within the possessions of the United States (except the Virgin Islands) may report as gross income only gross income from sources within the United States, provided, (a) 80 per cent or more of the gross income for the three-year period immediately preceding the close of the taxable year (or such part thereof as may be applicable) was derived from sources within a possession of the United States; and (b) 50 per cent or more of the gross income for such period or such part thereof was derived from the active conduct of a trade or business within a possession of the United States.

32. **Mutual insurance companies.**—A mutual insurance company (other than a life insurance company), in addition to the deductions allowed a corporation, unless otherwise allowed, may claim as deductions in Item 22 of the return, (a) the net addition required by law to be made within the taxable year to reserve funds (including in the case of an assessment insurance company the actual deposit of sums with State or Territorial officers pursuant to law as additions to guarantee or reserve funds); and (b) the sums other than dividends paid within the taxable year on policy and annuity contracts.

33. A mutual marine insurance company shall include in its gross income in Item 4 of this return the gross premiums collected and received, less amounts paid for reinsurance, and in addition to the deductions allowed a corporation, and to a mutual insurance company in Instruction 32 above, unless otherwise allowed, may claim as a deduction in Item 22 of the return amounts repaid to policyholders on account of premiums previously paid by them, and interest paid upon such amounts between the ascertainment and the payment thereof.

34. A mutual insurance company (including interinsurance and reciprocal underwriters, but not including a mutual life or mutual marine insurance company) requiring its members to make premium deposits to provide for losses and expenses, in addition to the deductions allowed a corporation, and to a mutual insurance company in Instruction 32 above, unless otherwise allowed, may claim as a deduction in Item 22 of the return, the amount of premium deposits returned to its policyholders and the amount of premium deposits retained for losses, expenses, and reinsurance reserves.

CONSOLIDATED RETURNS

38. Subject to the provisions of Section 141 of the Revenue Act of 1928 and Regulations 75, an affiliated group of corporations may make a consolidated return, in lieu of separate returns. The making of a consolidated return, and the determination, computation, assessment, collection, and adjustment of tax liabilities under a consolidated return, are governed by Regulations 75. If a consolidated return is made for any taxable year, a consolidated return must be made for each subsequent taxable year.

39. The parent corporation, when filing a consolidated return on this form, shall attach thereto a schedule showing the names and addresses of all the corporations included in the return. Each subsidiary must prepare two duplicate originals of Form 1122 consenting to Regulations 75 and authorizing the making of the return on its behalf. See Article 2(b) of Regulations 75. One of such forms shall be attached to the consolidated return as a part thereof, and the other shall be filed, at or before the time the consolidated return is filed, in the office of the Collector for the subsidiary's district.

40. Supporting schedules shall be filed with the consolidated return. These schedules shall be prepared in columnar form, one column being provided for each corporation included in the consolidation, one column for a total of like items before adjustments are made, one column for intercompany eliminations and adjustments, and one column for a total of like items after giving effect to the eliminations and adjustments. The items included in the column for eliminations and adjustments should be symbolized to identify contra items affected, and suitable explanations appended, if necessary. Similar schedules shall also contain in columnar form a reconciliation of surplus for each corporation, together with a reconciliation of the consolidated surplus.

41. Consolidated balance sheets as of the beginning and close of the taxable year of the group, shall accompany the consolidated return prepared in a form similar to that required for reconciliation of surplus.

In case the balance sheet as at the beginning of the current taxable year does not agree in every respect with the balance sheet which was submitted as at the end of the previous taxable year the differences should be fully explained in the space provided under Schedule K.

PERIOD COVERED

44. Except in the case of the first return the corporation shall make its return on the basis upon which the return was made for the taxable year immediately preceding unless, with the approval of the Commissioner, a change is made in the accounting period.

45. If a corporation desires to change its accounting period from fiscal year to calendar year, from calendar year to fiscal year, or from one fiscal year to another fiscal year, an application for such change shall be made on Form 1128 and forwarded to the Collector prior to the expiration of thirty days from the close of the proposed taxable year.

46. Where the Commissioner approves a change in the accounting period the net income computed on the separate return for a fractional part of a year shall be placed on an annual basis by multiplying the amount thereof by twelve and dividing by the number of months included in the period, and the tax shall be such part of the tax computed on such annual basis as the number of months in such period is of twelve months.

47. The return for the calendar year 1930 must be sent to the Collector of Internal Revenue for the district in which the corporation's principal office is located so as to reach the Collector's office on or before March 15, 1931. In the case of a foreign corporation not having any office or place of business in the United States the return shall be filed on or before June 15, 1931, with the Collector of Internal Revenue, Baltimore, Maryland.

48. The Collector of Internal Revenue may grant a reasonable extension of time for filing a return, if application therefor is made before the date prescribed by law for filing such return, whenever in his judgment good cause exists.

In such case the net income shall include interest on obligations of the United States issued after September 1, 1917, which would be subject to tax in whole or in part in the hands of an individual owner, and dividends received from a domestic corporation.
