Assignments:

There will be three problem sets and a final exam. All assignments must be completed in order to receive a final grade for the course.

Grading:

The mark for each problem set will be counted once, and the mark for the exam will be counted twice, providing a total of five marks. The lowest of these marks will be dropped and the remaining marks averaged. Notice that this means that, if the lowest grade is that of the exam, its weight will be halved, but it will not be completely dropped.

Late Policy:

Any late assignment will be penalized 10 (out of 100) points for each class period it is late, up to a maximum of 40 points.

Cooperation on Assignments:

Students are permitted (and encouraged) to discuss the answers to problem sets together. Copying from another student's answers is not allowed.
CLA Guidelines for Defining Scholastic Dishonesty:

"Scholastic dishonesty is any act that violates the rights of another student with respect to academic work or that involves misrepresentation of a student's own work. Scholastic dishonesty includes (but is not limited to) cheating on assignments or examinations, plagiarizing (misrepresenting as one's own anything done by another), submitting the same or substantially similar papers for more than one course without consent of all instructors concerned, depriving another of necessary course materials, sabotaging another's work." (p. 10, CLA Classroom, Grading & Examination Procedures. 1999-2000.)
